“We would not hesitate to recommend them to other clients following our first dealings with Matrix Electrical on this site.”

Mr. Michael Kevany, Gardiner & Theobald Management Services (QS on the project).

Activision, Inc. is a leading international publisher of interactive entertainment software products with *\$1.5 Billion in Revenue*. The company has built a diverse portfolio of products that span a wide range of categories and target markets and that is used on a variety of game hardware platforms and operating systems. The company has created, licensed and acquired a group of highly recognizable brands that it markets to a growing variety of consumer demographics. Its fiscal 2007 product portfolio included such best selling products as PlayStation®2 computer entertainment system, Xbox™ video game system from Microsoft, Nintendo®, GameCube™ and Nintendo Game Boy®. In 2007 Activision purchased local software firm Demonware and decided to set up a substantial office in Dublin for 120 Staff.

“This project was 8 weeks, start to finish. Matrix Electrical was very supportive and responsive to our demands on site. We’ll be please to work with them again.”

Mr. Stuart Ramsden, COO, Walls to Workstations.
